RATIONALE
An important goal for counsellors is to optimise human development throughout the entire lifespan. Counsellors are concerned with all periods of the lifespan when changes in personal and social development are expected. They therefore require a sound knowledge of normal developmental changes, understanding of the problems that can occur in coping with maturation, and the skills to help clients cope with a range of challenges, changes and difficulties.

SYNOPSIS
It is assumed that students will come into this course with knowledge of lifespan development. The overall aim of the course is to help students apply this knowledge and develop confidence and skills to work effectively in a counselling setting. Students are first provided with a general understanding of a range of personal and professional issues to be considered when counselling clients in different life stages. They will then examine common problems which can occur during these life stages and strategies used when counselling.

OBJECTIVES
On successful completion of this course students will be able to understand:

1. the meaning of child psychology, and the role of the child counsellor (Selected Activities);
2. a range of ‘special issues’ relevant to working with children, including expectations and traits of the child counsellor, common reactions to working with children, challenges in working with children, and the materials and environment for child therapy (Selected Activities, Minor Skills, Exam);
3. a range of ethical and legal issues in working with children (Selected Activities, Exam);
4. influences on the behaviour of children (Major Skills, Exam);
5. common childhood behaviour problems and disorders (Major Skill, Exam);
6. important assessment strategies for use with children (Major Skills, Minor Skills, Exam);
7. the process of problem conceptualisation and goal-setting for treatment ((Major Skills, Exam);
8. communication processes in working with children, including report writing (Major Skills, Exam);
9. a range of individual and group approaches to working with children (Major Skills, Exam);
10. the role of parents in the counselling process (Exam).

ASSESSMENT NOTES

9 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner.

10 Students must retain a copy of each item submitted for assessment. This must be produced within five days if required by the Examiner.

11 The examiner may grant an extension of the due date of an assignment in extenuating circumstances.
12 In the event that a due date for an assignment falls on a local public holiday in their area, such as a Show holiday, the due date for the assignment will be the next day. Students are to note on the assignment cover the date of the public holiday for the Examiner's convenience.

13 Students who have undertaken all of the required assessments in a course but who have failed to meet some of the specified objectives of a course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the examiner, a student will be able to achieve the remaining objectives of the course after a period of non directed personal study.

14 Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment or to sit for an examination at the scheduled time may apply to defer an assessment in a course. Such a request must be accompanied by appropriate supporting documentation. One of the following temporary grades may be awarded IDS (Incomplete - Deferred Examination; IDM (Incomplete Deferred Make-up); IDB (Incomplete - Both Deferred Examination and Deferred Make-up).

15 Students will require access to email and the internet for this course.
