RATIONALE
Early childhood education draws on a range of educational and care services that work together to support the well-being of children and their families. It is important that students appreciate the network of services that are available in the community and to understand the ways in which these services can complement the work of early childhood educators. An understanding of the need for interagency co-operation in the educare of children is expected in these times when children and their families have high expectation of teachers and carers. Teachers must have the skills and knowledge to work with those outside the traditional education contexts and to appreciate the complexities and contributions of their work. Teachers must also be aware of the variety of education and care contexts form which children may come, into their classrooms.

SYNOPSIS
In light of P-3 curriculum documents, this course will explore individual and group management in multilevel learning environments. Accessing appropriate resources (including human, material and web-based) and the development of community partnerships (including rural school and classroom settings) will be highlighted. The ideals of early childhood philosophy and pedagogy
will be revisited in order to effectuate professional decision making in organising a creative learning environment, developing assessment tools and curriculum design. Using knowledge related to policy change, legal and ethical requirements, leadership and management issues, students will be made aware of various professional and organisation roles and responsibilities.

OBJECTIVES
The course objectives define the student learning outcomes for a course. The assessment item(s) that may be used to assess student achievement of an objective are shown in parenthesis. On completion of this course students will be able to:

1. examine the social and political contexts of education and related services (professional experience; and professional experience folder)
2. document interactions with education and related professionals in their workplaces (professional experience; and professional experience folder)

8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. ASSESSMENT NOTES

1 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the examiner.

2 Students must retain a copy of each item submitted for assessment. This must be produced within twenty-four (24) hours of receipt of request being made by the examiner. The student must retain this copy until the grade for this course has been finalised.

3 In accordance with the University’s assignment extension policy (Regulation 5.6.1), the examiner may grant an extension of the due date of an assignment in extenuating circumstances.

4 The Faculty will normally only accept assessments that have been written, typed or printed on paper-based media. The Faculty will NOT accept submission of assignments by facsimile. Students who do not have regular access to postal services or who are otherwise disadvantaged by these regulations may be given special consideration. They should contact the examiner of the course to negotiate such special arrangements.

5 In the event that a due date for an assignment falls on a local public holiday in their area, such as a Show holiday, the due date for the assignment will be the next working day. Students are to note on the assignment cover the date of the public holiday for the examiner's convenience.

6 Students who have undertaken all of the required assessments in a course but who have failed to meet some of the specified objectives of a course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the examiner, a student will be able to achieve the remaining objectives of the course after a period of non-directed personal study.

7 Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment or to sit for an examination at the scheduled time may apply to defer an assessment in a course. Such a request must be accompanied by appropriate supporting documentation. One of the following temporary grades may be awarded IDS (Incomplete - Deferred Examination); IDM (Incomplete - Deferred Make-up); IDB (Incomplete - Both Deferred Examination and Deferred Make-up).

8 When there is more than one marker for a single item of assessment, the distributed patterns and means for the different markers will be compared and marks adjusted if necessary.
9 Marking criteria are provided in course material as mark sheets/guides or as part of assignment specifications.

10 As P is the only passing grade available for this course summative assessment items will receive a grade of P, F or IDM (Incomplete Deferred Make-up). Any ungraded assessment requirement will receive a Pass, Fail or Incomplete.
