SYNOPSIS
As students draw closer to meeting the full requirements for graduating from the program, it is absolutely essential that they have the opportunity to integrate and synthesise the knowledge and competencies developed to date in relation to their professional and managerial responsibilities. This course allows students to identify and articulate the strategic issues that organisations are confronting. Students will be able to draw upon some of the critical concepts, techniques and information from other courses studied in order to develop informative and comprehensive responses to some of the key questions encountered in the strategic management of an organisation. This course provides a framework for analysis and integration by focusing attention on the development of an organisation's strategic directions, strategic capabilities and internal and external dynamics.

OBJECTIVES
The course objectives define the student learning outcomes for a course. The assessment item/s that may be used to assess student achievement of an objective is/are shown in parentheses after each objective. On successful completion of this course, students should be able to:
1. provide evidence of insight into strategy development processes and of the ability to engage in strategic planning in different contexts and in particular also in the context of organisational learning (Assignment 1, Assignment 2, Examination)
2. analyse, articulate and evaluate an organisation's strategic position within its 'business' environment, which includes its competitive position, the factors underpinning its strategic capability and its organisational purposes (Assignment 1, Assignment 2, Examination)
3. analyse, critically reflect upon, develop and present appropriate options and rationales for strategic choices at both corporate and business levels, and also some of the more detailed choices of both strategic direction and method ( Assignment 1, Assignment 2, Examination)
4. analyse, critically reflect upon, develop and articulate various substantiated options relating to 'making strategy work' through developing the strategic capabilities of organisations (Examination).
