Examiner: Joachim Ferrer
Moderator: Don Gorman

REQUISITES
Pre-requisite: NUR2020 and MHN2020

RATIONALE
Mental health nursing is a specialised field that focuses on meeting the mental health needs of the community. The context of mental health nursing is broad and includes working with people with a diagnosed mental illness, people suffering emotional distress as a result of stress, trauma, illness or/and hospitalisation, the families and loved ones of these people as well as the community in which they live. No matter what their specialist area of practice, nurses work with people with mental health problems. Therefore they need to have the appropriate skills and attitudes to assist their clients to deal with emotional difficulties related to health issues. Mental Health 2 aims to equip the nurse with the skills necessary to help individuals and their families with the mental/emotional aspects of health.

SYNOPSIS
Mental Health Nursing 2 develops themes and concepts introduced in Mental Health Nursing 1 and Psychosocial Foundations of Nursing 1 and 2. There is more emphasis upon the unique and changing role of the nurse and the changing relationship with consumers/clients/patients. This course further develops students' interpersonal communication skills, specifically the development of client centred counselling skills. Professional mental health nursing issues are addressed. Mental Health care to special needs groups will also be addressed as these groups suffer special threats to their integrity and increase their vulnerability.

OBJECTIVES
On successful completion of this course students will be able to:
1. demonstrate an understanding of the role of the nurse in helping a person with mental health problems reduce vulnerability and maintain integrity (Essay, Clinical Experience);

2. demonstrate an understanding of the changing role of consumers in the delivery of health care and that the consumer has rights to advocacy and confidentiality and be able to discuss how this contributes to their maintenance of integrity (Essay, Clinical Experience);

3. identify the health needs of "special groups" including people from NESB, Aboriginal and Torres Strait Islander Peoples, men and women, older people, young people, people from rural and isolated areas, people with disabilities, the homeless and incarcerated and how being part of these groups increases their vulnerability as described by Irurita (1999) (Essay, Clinical Experience);

4. demonstrate micro counselling skills with people with health problems. These skills should help to maintain the clients integrity as described by Irurita (1999) (Essay, Clinical Experience, Exam);

5. Clinical Objectives: set and achieve three clinical objectives related to the objectives of this course (Clinical Experience);

6. plan appropriate nursing interventions for clients suffering mental health problems. This plan should help the client maintain their integrity and reduce vulnerability, ie develop a care plan for a client that considers the mental health aspects of their illness (Essay, Clinical Experience, Exam);

7. demonstrate a high level of communication skills when working with people with health problems (Clinical Experience, Exam).

**NOTES**

1. Further details about the due dates will be available via the Nursing website and Course Guide.
2. Examination due dates will be available during the semester. Please refer to the examination timetable when published.

**IMPORTANT ASSESSMENT INFORMATION**

1. Attendance requirements:
   It is the students' responsibility to attend and participate appropriately in all activities (such as lectures and tutorials) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.

2. Requirements for students to complete each assessment item satisfactorily:
   To complete an assessment item satisfactorily, students must obtain at least 50% of the marks available for that assessment item.

3. Penalties for late submission of required work:
   If students submit assignments after the due date without prior approval then a penalty of 20% of the total marks available for the assignment will apply for each working day late.

4. Requirements for student to be awarded a passing grade in the course:
   To be assured of a pass in this course, students must: (i) submit all pieces of assessment; (ii) complete 80 hours of supervised clinical experience as organised by the Nursing Department and satisfactorily complete the clinical evaluation tool (students must gain the 1 mark for this assessment); and (iii) obtain an overall mark of at least 50%.

5. Method used to combine assessment results to attain final grade:
   The final grades for students will be assigned on the basis of the weighted aggregate of the marks obtained for each of the summative assessment items in the course.

6. Examination information:
   The only materials that candidates may use in the restricted examination for this course are: writing materials (non-electronic and free from material which could give the student an unfair advantage in the examination); calculators which cannot hold textual information (students must indicate on their examination paper the make and model of any calculator(s) they use during the examination. Also, with the Examiner's approval, candidates may take an appropriate non-electronic translation dictionary into the examination. This will be subject to perusal and, if it is found to contain annotations or markings that could give the candidate an unfair advantage, it may be removed from the candidate's possession until the appropriate disciplinary action is completed.

7. Examination period when Deferred/Supplementary examinations will be held:
   Any supplementary or deferred examinations for this course will be held during the following semester 2 examination period.

8. University Regulations:
   Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL http://www.usq.edu.au/corporateservices/calendar/part5.htm or in the current USQ Handbook.

**ASSESSMENT NOTES**

9. The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner.
10 Students must retain a copy of each item submitted for assessment. This should be sent to USQ within 24 hours of receipt of a request from the Examiner.

11 The examiner may grant an extension of the due date of an assignment in extenuating circumstances.

OTHER REQUIREMENTS

1 Students of clinical courses need to be certain they have submitted the following documents to the Faculty Office to ensure they will be allowed to proceed to a clinical placement - Current CPR Certification, Completion of the Queensland Health Orientation and submission of the checklist, Hepatitis B titre declaration and Confidentiality Form.
