Academic group: FOSCI
Academic org: FOS003
Student contribution band: 2
ASCED code: 029999

STAFFING
Examiner: Hua Wang
Moderator: Ron Addie

REQUISITES
Pre-requisite: Students must be enrolled in one of the following Programs: BINH or MCOP or MPIT or BSCH or MSMS.

RATIONALE
An in-depth project and dissertation on a specialised research topic are necessary to prepare graduates for further research, applications and responsible jobs in Bioinformatics, Computer Science, Mathematics or Statistics. This course, in conjunction with MSC8002, enables students to develop and use research capability and an advanced level of Bioinformatics, Computer Science, Mathematics or Statistics skills.

SYNOPSIS
This course forms the first part of the research component of the Honours and Masters programs in the Department of Mathematics and Computing, developed further in MSC8002. It develops the foundation for ultimately completing a selected project in Bioinformatics, Computing Science, Mathematics or Statistics with the supervision of appropriate staff from the Department of Mathematics and Computing. The project will consist of review, research into and reporting of a well defined area and its application. In this course, information and ideas for the project will be gathered, organised and a preliminary analysis made in a critical and evaluative manner. The topic of the project will be selected in consultation with the appropriate staff of the Department.

OBJECTIVES
On successful completion of this course students will be able to:

1. conduct a research literature survey in Bioinformatics, Computer Science, Mathematics or Statistics (Assignment 1, MSC8002 Dissertation);
2. plan an investigation of a suitable and approved research topic (Assignment 1, Proposal and ethics approval, Preliminary proposal, preliminary seminar);
3. develop advanced Bioinformatics, Computer Science, Mathematics or Statistics skills which include the analysis, synthesis and evaluation of factors involved in the project (MSC8002 Seminar, MSC8002 Dissertation).

TEXT and MATERIALS required to be PURCHASED or ACCESSED

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at http://bookshop.usq.edu.au click 'Semester', then enter your 'Course Code' (no spaces).

Course web site: http://www.sci.usq.edu.au/courses/MSC8001

REFERENCE MATERIALS

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

Appropriate material from: books, monographs, journals and conference proceedings, computer software and material from electronic sources.

NOTES
1. Final Seminar for students enrolled in MSC8002 is due during Week 10.
2. Dissertation for students enrolled in MSC8002 is due during Week 14.

IMPORTANT ASSESSMENT INFORMATION

1. Attendance requirements:
   It is the student's responsibility to maintain regular contact with their supervisor, and to study all material provided to them or required to be accessed by them, to maximise their chance of meeting the objectives of the course, and to be informed of course-related activities and administration. It is the student's responsibility to maintain regular contact with their supervisor according to a mutually agreed schedule.

2. Requirements for students to complete each assessment item satisfactorily:
   To satisfactorily complete an individual assessment item, a student must achieve at least 50% of the marks.

3. Penalties for late submission of required work:
   If students submit assignments after the due date without (prior) approval of the examiner then a penalty of 1% of the total marks gained by the student for the assignment will apply for each working day late.

4. Requirements for student to be awarded a passing grade in the course:
   To be assured of receiving a passing grade, students must demonstrate, via the summative assessment items, that they have achieved the required minimum standards in relation to the objectives of the course by: (1) submitting all summative assessment items; and (2) gaining at least 50% of the marks available for each summative assessment item.

5. Method used to combine assessment results to attain final grade:
   The final grades for students will be assigned on the basis of the aggregate of the weighted marks obtained for each of the summative assessment items in the course.
6 Examination information:
   There is no examination in this course.

7 Examination period when Deferred/Supplementary examinations will be held:
   As there are no examinations in this course, there will be no deferred or supplementary
   examinations.

8 University Regulations:
   Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10
   Academic Misconduct for further information and to avoid actions which might contravene
   University Regulations. These regulations can be found at the URL
   http://www.usq.edu.au/corporateservices/calendar/part5.htm or in the current USQ
   Handbook.

ASSESSMENT NOTES

9 The due date for an assignment is the date by which a student must despatch the assignment
   to the USQ. The onus is on the student to provide proof of the despatch date, if requested
   by the Examiner.

10 Students may be required to provide a copy of assignments submitted for assessment
   purposes. Such copies should be dispatched to the USQ within 24 hours of receipt of a
   request to do so.

11 In accordance with University policy, the Examiner may grant an extension of the due
   date of an assessment item in extenuating circumstances.

12 A grade of IIP (Incomplete, In Progress) will be temporarily awarded for this course when
   the student has completed the first four assessment items satisfactorily. A final grade for
   the course will be assigned upon completion and assessment of MSC8002 Research Project
   Dissertation.

13 In exceptional circumstances and only with the prior approval of the Examiner, a student
   may be awarded a passing grade in this course upon Satisfactory completion of the first
   four assessment items and the submission of a project dissertation of a satisfactory standard
   appropriate for two credit points.
