Description: Biology 2 (Accelerated)

Subject  Cat-nbr  Class  Term  Mode  Units  Campus
ASC  2101  87508  1, 2009  ONC  1.00  Toowoomba

Academic group: FOSCI
Academic org: FOS002
Student contribution band: 6
ASCED code: 010999

STAFFING
Examiner: Lisa Reardon
Moderator: John Dearnaley

REQUISITES
Pre-requisite: BIO1101 and Students must be enrolled in the ABMS program

RATIONALE
Biology 2 builds on the fundamental concepts of cell structure and function introduced in Biology 1 and provides a theoretical and practical foundation in the biological sciences for both science and non-science students. This course provides a detailed examination of basic animal and plant biology, genetics and evolution which is essential for further study in biology.

SYNOPSIS
The nervous, endocrine, reproductive, cardiovascular, respiratory and renal systems of animals are introduced. This is followed by a study of plant reproductive processes and secondary tissue formation and an overview of plant physiology. We next examine Mendelian genetics in detail. Finally, we explore evolution - the process by which organisms change over time.

OBJECTIVES
On successful completion of this course students will be able to:

1. describe the basic anatomical characteristics and functional features of each of the reproductive, nervous, cardiovascular, respiratory and renal systems (Report 1; Mid-semester Test);
2. demonstrate an understanding of some of the complex nervous and hormonal control mechanisms involved in controlling the reproductive, respiratory, cardiovascular, and renal systems (Report 1; Mid-semester Test);
3. conduct simple physiological experiments and interpret the results of these experiments (Reports 1 & 2);
4. conduct simple physiological experiments and interpret the results of these experiments (Reports 1 & 2);
5. describe the processes of mitosis and meiosis (End-semester Exam);

**TOPICS**

<table>
<thead>

**TEXT and MATERIALS required to be PURCHASED or ACCESSED**

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at http://bookshop.usq.edu.au click 'Semester', then enter your 'Course Code' (no spaces).

Dissection Kit

REFERENCE MATERIALS

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

NOTES

1. Examiner will advise date of Mid-semester test.
2. Examiner will advise date of Mid-semester test.
3. Examiner will advise due dates of Practical Reports 1 & 2.
4. Examiner will advise due dates of Practical Reports 1 & 2.
5. Test dates may change during the Semester. You will be advised by your Examiner.
6. Test dates may change during the Semester. You will be advised by your Examiner.

IMPORTANT ASSESSMENT INFORMATION

1. Attendance requirements:
   It is the students’ responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.

2. Requirements for students to complete each assessment item satisfactorily:
   To complete each of the assessment items satisfactorily, students must obtain at least 50% of the marks available for each assessment item.

3. Penalties for late submission of required work:
   If students submit assignments after the due date without (prior) approval of the examiner then a penalty of 5% of the total marks gained by the student for the assignment may apply for each working day late up to ten working days at which time a mark of zero may be recorded. No assignments will be accepted after model answers have been posted.

4. Requirements for student to be awarded a passing grade in the course:
   To be assured of receiving a passing grade a student must achieve at least 50% of the total weighted marks available for the course.

5. Method used to combine assessment results to attain final grade:
   The final grades for students will be assigned on the basis of the weighted aggregate of the marks obtained for each of the summative assessment items in the course.

6. Examination information:
   There is no examination for this course.
7 Examination period when Deferred/Supplementary examinations will be held: 
As there is no examination for this course there is no Deferred or Supplementary 
examinations.

8 University Regulations: 
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment and 5.10 Academic 
Misconduct for further information and to avoid actions which might contravene University 
Regulations. These regulations can be found at the URL 
http://www.usq.edu.au/corporateservices/calendar/part5.htm or in the current USQ 
Handbook.

ASSESSMENT NOTES

9 In order to attend laboratory classes, students must provide and wear appropriate personal 
protective equipment. This shall include a laboratory coat, closed in shoes, and safety 
glasses. Such equipment must be approved by supervising staff. Failure to provide and 
wear the appropriate safety equipment will result in students being excluded from classes.

10 Students who have undertaken all of the required assessments in a course but who have 
failed to meet some of the specified objectives of a course within the normally prescribed 
time may be awarded the temporary grade: IM (Incomplete-Make-up). An IM grade will 
only be awarded when, in the opinion of the examiner, a student will be able to achieve 
the remaining objectives of the course after a period of non directed personal study. 
Students who, for medical, family/personal, or employment-related reasons, are unable 
to complete an assignment or to sit for an examination at the scheduled time may apply 
to defer an assessment in a course. Such a request must be accompanied by appropriate 
supporting documentation. One of the following temporary grades may be awarded IDS 
(Incomplete-Deferred Examintion); IDM (Incomplete Deferred Make-up); IDB (Incomplete 
- Both Deferred Examination and Deferred Make-up).

11 The due date for an assignment is the date by which a student must despatch the assignment 
to the USQ. The onus is on the student to provide proof of the despatch date, if requested 
by the Examiner. Students must retain a copy of each item submitted for assessment. If 
requested by the Examiner, students will be required to provide a copy of assignments 
submitted for assessment. Such copies should be despatched to USQ within 24 hours of 
receipt of a request being made. The examiner of a course may grant an extension of the 
due date of an assignment in extenuating circumstances. In the event that a due date for 
an assignment falls on a local public holiday in their area, such as a Show holiday, the 
due date for the assignment will be the next day. Students are to note on the assignment 
cover the date of the public holiday for the Examiner’s convenience.
