Examiner: Mafiz Rahman
Moderator: Jeffrey Gow

REQUISITES
Pre-requisite: ECO1000

OTHER REQUISITES
Students are required to have access to a personal computer, e-mail capabilities and Internet access to UConnect. Current details of computer requirements can be found at <http://www.usq.edu.au/ict/students/standards/default.htm>.

RATIONALE
Microeconomics is a study of people in the `ordinary business of life'. As economic welfare depends upon the choices of people regarding the allocation and use of resources, it is necessary that ordinary members of the community, and specialists in government, education and business, understand the account of these choices that is provided by microeconomic theory and are able to develop critiques of that theory. It is also necessary that they are able to appreciate, and undertake, microeconomic analysis of contemporary problems and policies. This course explores the theory of economic choice and its application to a range of resource-use questions.

SYNOPSIS
Microeconomics is part of the study of how the world works. It deals with business, household and government choices, the design and effects of policy and the efficiency and fairness of the way resources are used in a community. This course focuses upon a range of microeconomic principles, their use by economists in economic analysis and their relevance in the global economy. While drawing on the history of economic thought, it emphasises contemporary resource-use issues and the development of the skills of the professional economist.
OBJECTIVES

On successful completion of this course, students should be able to:

1. identify and explain sources of microeconomic change in an economy
2. demonstrate an understanding of the nature and method of micro-economics and of a set of selected microeconomic principles and theories
3. apply microeconomic theory in the explanation of resource allocation patterns in an economy
4. examine the role of government in the promotion and/or regulation of industry and markets to improve resource allocation
5. undertake microeconomic analysis and develop strategic and policy advice using language literacy, computer literacy and numeracy
6. critically appraise microeconomic theory and policy
7. demonstrate problem solving skills required by economists through the use of microeconomic models under different market structures
8. demonstrate an ability to communicate the results of an economic analysis to an audience of stakeholders in a potential project or decision
9. develop self creativity and take appropriate initiatives with regard to economic and financial decision.

TEXT and MATERIALS required to be PURCHASED or ACCESSED

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at http://bookshop.usq.edu.au click 'Semester', then enter your 'Course Code' (no spaces).

REFERENCE MATERIALS

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

### NOTES
1. Assignment 1 consists of 10 multiple-choice questions and three short-answer questions.
2. Assignment 2 consists of 10 multiple-choice questions, 1 short-answer question and 1 essay question.
3. The examination is scheduled to be held in the end-of-semester examination period. Students will be advised of the official examination date for Examination (A, B and C) after the timetable has been finalised. The total working time for Examination (A, B and C) is 2 hours.

## IMPORTANT ASSESSMENT INFORMATION

1. Attendance requirements:
   - If you are an international student in Australia, you are advised to attend all classes at your campus. For all other students, there are no attendance requirements for this course. However, it is the students' responsibility to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.

2. Requirements for students to complete each assessment item satisfactorily:
   - To satisfactorily complete an individual assessment item a student must achieve at least 50% of the marks. (Depending upon the requirements in Statement 4 below, students may not have to satisfactorily complete each assessment item to receive a passing grade in this course.)

3. Penalties for late submission of required work:
   - If students submit assignments after the due date without prior approval of the examiner, then a penalty of 5% of the total marks gained by the student for the assignment may apply for each working day late up to ten working days at which time a mark of zero may be recorded.

4. Requirements for student to be awarded a passing grade in the course:
   - To be assured of receiving a passing grade a student must achieve at least 50% of the total weighted marks available for the course.

5. Method used to combine assessment results to attain final grade:
   - The final grades for students will be assigned on the basis of the aggregate of the weighted marks obtained for each of the summative assessment items in the course.

6. Examination information:
   - This is a restricted examination. The only materials that candidates may use in the examination for this course are (i) writing materials: non-electronic and free from material
which could give the student an unfair advantage in the examination; (ii) calculators which
cannot hold textual information (students must indicate on their examination paper the
make and model of any calculator(s) they use during the examination; (iii) translation
dictionaries: with the examiner's approval, candidates may, take an appropriate
non-electronic translation dictionary into the examination (this will be subject to perusal
and, if it is found to contain annotations or markings that could give the candidate an
unfair advantage, it may be removed from the candidate's possession until the appropriate
disciplinary action is completed).

7 Examination period when Deferred/Supplementary examinations will be held:
Any Deferred or Supplementary examinations for this course will be held during the next
examination period.

8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6 Assessment, and 5.10 Student
Academic Misconduct for further information and to avoid actions which might contravene
university regulations. These regulations can be found at
<http://www.usq.edu.au/corporateservices/calendar/part5.htm>. Students should also read
the Faculty of Business Procedures which can be found at

ASSESSMENT NOTES

1 Assignments: (i) The due date for an assignment is the date by which a student must
despatch the assignment to the USQ. The onus is on the student to provide proof of the
despatch date, if requested by the examiner. (ii) Students must retain a copy of each
assignment submitted for assessment. This must be produced within 24 hours if required
by the examiner. (iii) In accordance with university policy, the examiner may grant an
extension of the due date of an assignment in extenuating circumstances. (iv) The examiner
will normally only accept assessments that have been written, typed or printed on
paper-based media. (v) The examiner will not accept submission of assignments by
facsimile. (vi) Students who do not have regular access to postal services or who are
otherwise disadvantaged by these regulations may be given special consideration. They
should contact the examiner to negotiate such special arrangements. (vii) In the event that
a due date for an assignment falls on a local public holiday in their area, such as a show
holiday, the due date for the assignment will be the next day. Students are to note on the
assignment the date of the public holiday for the examiner's convenience.

2 Referencing in assignments: Harvard (AGPS) is the referencing system required in this
course. Students should use Harvard (AGPS) style in their assignments to format details
of the information sources they have cited in their work. The Harvard (AGPS) style to be
used is defined by the USQ Library's referencing guide at

3 Course weightings: Course weightings of topics should not be interpreted as applying to
the number of marks allocated to questions testing those topics in an examination paper.
The examination may test material already tested in assignments.

4 Deferred work: Students who, for medical, family/personal, or employment-related reasons,
are unable to complete an assignment or to sit for an examination at the scheduled time
may apply to defer an assessment in a course. Such a request must be accompanied by
appropriate supporting documentation. One of the following temporary grades may be
awarded: IDS (Incomplete - Deferred Examination); IDM (Incomplete Deferred Make-up);
IDB (Incomplete - Both Deferred Examination and Deferred Make-up).
OTHER REQUIREMENTS

1. Computer, e-mail and Internet access: Students are required to have access to a personal computer, e-mail capabilities and Internet access to UConnect. Current details of computer requirements can be found at <http://www.usq.edu.au/ict/students/standards/default.htm>.
