Academic group: FOSCI
Academic org: FOS002
Student contribution band: 6
ASCED code: 010999

STAFFING

Examiner: Kerry Withers
Moderator: John Dearaley

REQUISITES

Pre-requisite: ASC1101 and Students must be enrolled in the ABMS program

RATIONALE

Biology 2 builds on the fundamental concepts of cell structure and function introduced in Biology 1 and provides a theoretical and practical foundation in the biological sciences for both science and non-science students. This course provides a detailed examination of basic animal and plant biology, genetics and evolution which is essential for further study in biology.

SYNOPSIS

The nervous, endocrine, reproductive, cardiovascular, respiratory and renal systems of animals are introduced. This is followed by a study of plant reproductive processes and secondary tissue formation and an overview of plant physiology. We next examine Mendelian genetics in detail. Finally, we explore evolution - the process by which organisms change over time.

OBJECTIVES

On successful completion of this course students will be able to:

1. describe the basic anatomical characteristics and functional features of each of the reproductive, nervous, cardiovascular, respiratory and renal systems;
2. demonstrate an understanding of some of the complex nervous and hormonal control mechanisms involved in controlling the reproductive, respiratory, cardiovascular, and renal systems;
3. conduct simple physiological experiments and interpret the results of these experiments;
4. demonstrate an understanding of the basic form and function of the flowering plant;
5. describe the processes of mitosis and meiosis;
6. distinguish between dominant and recessive modes of inheritance;
7. demonstrate an understanding of how proteins are formed from genes;  
8. describe the mechanisms of evolution.

**TOPICS**

<table>
<thead>
<tr>
<th>Description</th>

**TEXT and MATERIALS required to be PURCHASED or ACCESSED**

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at http://bookshop.usq.edu.au click 'Semester', then enter your 'Course Code' (no spaces).

(Dissection Kit)
REFERENCE MATERIALS

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

NOTES
1. Examiner will advise date of Mid-semester test.
2. Examiner will advise due dates of Practical Reports 1 & 3.
3. Examiner will advise due dates of Practical Reports 1 & 3.
4. Test dates may change during the Semester. You will be advised by your Examiner.
5. Test dates may change during the Semester. You will be advised by your Examiner.
6. Examiner will advise date of Mid-semester test.

IMPORTANT ASSESSMENT INFORMATION

1 Attendance requirements:
   It is the students’ responsibility to attend and participate appropriately in all activities
   (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to
   study all material provided to them or required to be accessed by them to maximise their
   chance of meeting the objectives of the course and to be informed of course-related
   activities and administration.

2 Requirements for students to complete each assessment item satisfactorily:
   To complete each of the assessment items satisfactorily, students must obtain at least 50% of
   the marks available for each assessment item.

3 Penalties for late submission of required work:
   If students submit assignments after the due date without (prior) approval of the examiner then a penalty of 5% of the total marks gained by the student for the assignment may apply for each working day late up to ten working days at which time a mark of zero may be recorded. No assignments will be accepted after model answers have been posted.

4 Requirements for student to be awarded a passing grade in the course:
   To be assured of receiving a passing grade a student must achieve at least 50% of the total
   weighted marks available for the course.

5 Method used to combine assessment results to attain final grade:
   The final grades for students will be assigned on the basis of the weighted aggregate of
   the marks obtained for each of the summative assessment items in the course.

6 Examination information:
There is no examination for this course.

7 Examination period when Deferred/Supplementary examinations will be held:
   As there is no examination for this course there is no Deferred or Supplementary
   examinations.

8 University Regulations:
   Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment and 5.10 Academic
   Misconduct for further information and to avoid actions which might contravene University
   Regulations. These regulations can be found at the URL
   http://www.usq.edu.au/corporateservices/calendar/part5.htm or in the current USQ
   Handbook.

ASSESSMENT NOTES

9 In order to attend laboratory classes, students must provide and wear appropriate personal
   protective equipment. This shall include a laboratory coat, closed in shoes, and safety
   glasses. Such equipment must be approved by supervising staff. Failure to provide and
   wear the appropriate safety equipment will result in students being excluded from classes.

10 Students who have undertaken all of the required assessments in a course but who have
    failed to meet some of the specified objectives of a course within the normally prescribed
    time may be awarded the temporary grade: IM (Incomplete-Make-up). An IM grade will
    only be awarded when, in the opinion of the examiner, a student will be able to achieve
    the remaining objectives of the course after a period of non directed personal study.
    Students who, for medical, family/personal, or employment-related reasons, are unable
    to complete an assignment or to sit for an examination at the scheduled time may apply
    to defer an assessment in a course. Such a request must be accompanied by appropriate
    supporting documentation. One of the following temporary grades may be awarded IDS
    (Incomplete-Deferred Examination); IDM (Incomplete Deferred Make-up); IDB (Incomplete
    - Both Deferred Examination and Deferred Make-up).

11 The due date for an assignment is the date by which a student must despatch the assignment
    to the USQ. The onus is on the student to provide proof of the despatch date, if requested
    by the Examiner. Students must retain a copy of each item submitted for assessment. If
    requested by the Examiner, students will be required to provide a copy of assignments
    submitted for assessment. Such copies should be despatched to USQ within 24 hours of
    receipt of a request being made. The examiner of a course may grant an extension of the
due date of an assignment in extenuating circumstances. In the event that a due date for
an assignment falls on a local public holiday in their area, such as a Show holiday, the
due date for the assignment will be the next day. Students are to note on the assignment
cover the date of the public holiday for the Examiner's convenience.

12 Harvard (AGPS) is the referencing system required in this course. Students should use
   Harvard (AGPS) style in their assignments to format details of the information sources
   they have cited in their work. The Harvard (AGPS) style to be used is defined by the USQ
