Program aims

This Undergraduate Certificate of Teaching (Early Childhood Education) offers an introduction to the key concepts, knowledge and skills that underpin the work of an early childhood educator. It balances theoretical understandings with practical considerations to start a journey towards being in educational and care settings, as well as classroom contexts. This certificate is an entry point and four units of credit towards a [Bachelor of Education \(Early Childhood\)](#), which provides graduates with a qualification for working with children from birth to eight years of age.

Program objectives

Upon successful completion of this program, students should be able to:

- (1) identify and analyse the dispositions of relational teachers and to reflect on personal strengths and weaknesses for establishing a supportive learning environment
- (2) demonstrate an understanding of the role of creativity and play to support young children's imagination, learning and development
- (3) analyse the role of the arts in affording children the opportunity to communicate in multiple ways and share their history, culture and languages
- (4) select appropriate pedagogies for the teaching of Aboriginal and Torres Strait Islander learners with consideration of culture, cultural identity and linguistic backgrounds and their impact on education
- (5) apply and articulate the professional responsibilities of teachers through effective personal literacy and the ethical use of information and communication technology.

Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications offered by higher education institutions (including universities), vocational education and training institutions and secondary schools. Each AQF qualification has a set of descriptors which define the type and complexity of knowledge, skills and application of knowledge and skills that a graduate who has been awarded that qualification has attained, and the typical volume of learning associated with that qualification type.

This program is at AQF Qualification Level 07. Graduates at this level will have broad and coherent knowledge and skills for professional work and/or further learning.

The full set of levels criteria and qualification type descriptors can be found by visiting www.aqf.edu.au.
