### Program aims

The Foundation Diploma of University Studies aims to equip students with the necessary skills to successfully respond to the numeracy, literacy, critical thinking and e-literacy demands of higher education studies and the professional workplace, in addition to assisting students to successfully manage the complexities of life/work balance. The Foundation Diploma firstly provides students with a broad introduction to the academic culture of university studies and an enhanced understanding and knowledge of foundational issues, principles and strategies needed in order to be successful in the first year undergraduate level of study, before providing students with four first-year undergraduate courses of specialisation in a discipline area. The program will appeal to those who want to enhance and develop their broad award-level study skills prior to undertaking a range of discipline courses and determining whether to embark on a more specialised degree program, or opting instead to graduate out with a new sub-degree qualification.

### Program objectives

On successful completion of the Foundation Diploma of University Studies graduates will have:

- (1) developed foundation knowledge, skills and competencies in a series of generic first year award-level undergraduate courses
- (2) developed foundation knowledge, skills and competencies in an area of specialisation from a first year undergraduate discipline area
- (3) developed an enhanced awareness of the nature of award-level study in the Faculty of Business, Education, Law and Arts, or the Faculty of Health, Engineering, and Sciences
- (4) demonstrated effective communication and interpersonal skills and an ability to successfully pursue an undergraduate program of study in either the Faculty of Business, Education, Law and Arts, or the Faculty of Health, Engineering, and Sciences.
