**Footnotes**

* Students who commenced the Postgraduate Certificate of Sustainability Science prior to Semester 2 2013 may articulate to the Master of Sustainability Science, with completion of further courses, as required by that program. The last intake for the Master of Sustainability Science was Semester 1 2013. Students who commenced the Postgraduate Certificate of Sustainability Science in Semester 2 2013 may articulate to the Master of Science (Environment and Sustainability), with completion of further courses, as required by that program.

**Contact us**

**Current students**

- Ask a question
- Freecall (within Australia): 1800 007 252
- Phone (from outside Australia): +61 7 4631 2285
- Email: usq.support@usq.edu.au

**Program aims**

This program aims to provide professionals in environmental and resource management and related fields, with appropriate formal instruction to enhance their skills and knowledge in the emerging discipline of sustainability science.

**Program objectives**

On completion of the program graduates will be able to:

- understand the principles and approaches of sustainability
- integrate the scientific foundations for sustainable development through environmental, social and economic disciplines
- critically analyse multi-disciplinary information and data to provide informed decision-making in relation to resource management
- critically assess the emerging approaches to policy development and institutional arrangements to support sustainability
- identify and apply effective methods of community engagement
- manage complex decision-making in the face of risk and uncertainty.

**Admission requirements**

To be eligible for admission, applicants must satisfy the following requirements:
To be considered for entry, applicants must hold a three-year Bachelor's degree from an Australian University or equivalent.

A formal process of Accreditation of Prior Learning (APL) will be used to assess applicants without Bachelor degrees, who wish to gain entry to the program on the basis of equivalent experience or qualifications. Applicants should contact the Faculty of Health, Engineering and Sciences if they wish to be assessed for admission on this basis.

All students are required to satisfy the applicable English language requirements.

If students do not meet the English language requirements they may apply to study a University-approved English language program. On successful completion of the English language program, students may be admitted to an award program.

**Program fees**

**Domestic full fee paying place**
Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. Students are able to calculate the fees for a particular course via the Course Fee Finder.

Domestic full fee paying students may be eligible to defer their fees through a Government loan called FEE-HELP provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian Visa holders, Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for FEE-Help.

**International full fee paying place**
International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, via distance education/online. Students are able to calculate the fees for a particular course via the Course Fee Finder.

**Program structure**
The Postgraduate Certificate of Sustainability Science program contains four compulsory Level 8 courses of one unit each. With the approval of the Faculty of Health, Engineering and Sciences, students may apply to vary their program on the basis of prior study.

To qualify for the award of Postgraduate Certificate of Sustainability Science, a candidate must complete the following Level 8 courses within three years of first admission to the program: REN8101 Environment, Society and Sustainability; POL3013 Sustainability and Politics; REN8202 Conservation for Sustainable Futures and ECO8012 Methods for Sustainable Development.

The Faculty's approval must be obtained before any courses not listed above may be credited towards the program.

**Required time limits**
Students have a maximum of 3 years to complete this program.

**IT requirements**
Students should visit the USQ minimum computing standards to check that their computers are capable of running the appropriate software and versions of Internet web browsers and to check the minimum and recommended standards for software. **Note that students in this program will require internet access.**

**Articulation**
Students who commenced the Postgraduate Certificate of Sustainability Science prior to Semester 2, 2013 may articulate to the Master of Sustainability Science, with completion of further courses, as required by that program.
The last intake for the Master of Sustainability Science was Semester 1 2013. Students who commenced the Postgraduate Certificate of Sustainability Science in Semester 2, 2013 may articulate to the Master of Science (Environment and Sustainability), with completion of further courses, as required by that program.

Students must advise the Faculty in writing (sciences.support@usq.edu.au) of their intention to articulate and this must occur prior to graduation from the PCSS. If a student is articulating to the higher degree, they will apply to that higher degree and will only graduate from that higher degree.

Credit
No exemptions will be granted towards this award.

Course transfers
Transfer of credit for completed USQ courses from incomplete programs to the Postgraduate Certificate of Sustainability Science program will be allowed in accordance with USQ regulations provided the courses in question are compatible with the requirements for the Postgraduate Certificate of Sustainability Science.

Recommended enrolment pattern - Part-time
Students are able to enrol in any offered mode of a course (on-campus, external or online), regardless of the program mode of study they enrolled in.
